WHO HE IS

Cameron De Vries

Location: Bonteheuwel, Cape Town, South Africa.
A multi-disciplinary **"Creative Builder"** bridging the gap between high-stakes physical environments and complex digital architectures.
Mission: To design and deploy secure, scalable automation systems in regulated, high-responsibility environments.

CAMODEVOPS

Concept: A creative consulting and development brand specialized in platform engineering.
Focus: Secure, scalable authentication and automation.
Strategic Moat: Combines maritime safety discipline (STCW) with modern DevOps to solve critical operational problems.

→ Platform Engineering

→ Digital Security Consulting

→ Systemic Automation

OPENCLAW

AI Deployment Arm
Core Product: *Agent Kyra*, a localized Large Language Model (LLM) orchestration system.
Technical Edge: High-performance local execution of models like **Qwen** to ensure absolute privacy and security.
Mission: Moving intelligence to the "edge" to increase reliability and slash operational costs.

79RATIO

The Agency

A creative consulting firm focused on architecting secure data tracking and robust access control solutions.

Target Market

SMEs requiring high-tier digital presences and infrastructure (e.g., SecurieCam projects).

Stack Focus

Optimized for speed and security using TypeScript, React, and Cloudflare Pages for seamless edge deployment.

Scalability

Building frameworks that grow with the business without compromising on security protocols.

COMMUNITY IMPACT

B-BBEE

Our Community in Unity (OCIU)
Status: Level 1 Non-Profit Organization.
Commanding Officer: Cameron De Vries leading community resilience efforts.
WeCreate Training: Empowering youth with high-value skills in Cloud Computing, Digital Marketing, and Media Production.

BUDDIES WORLDWIDE

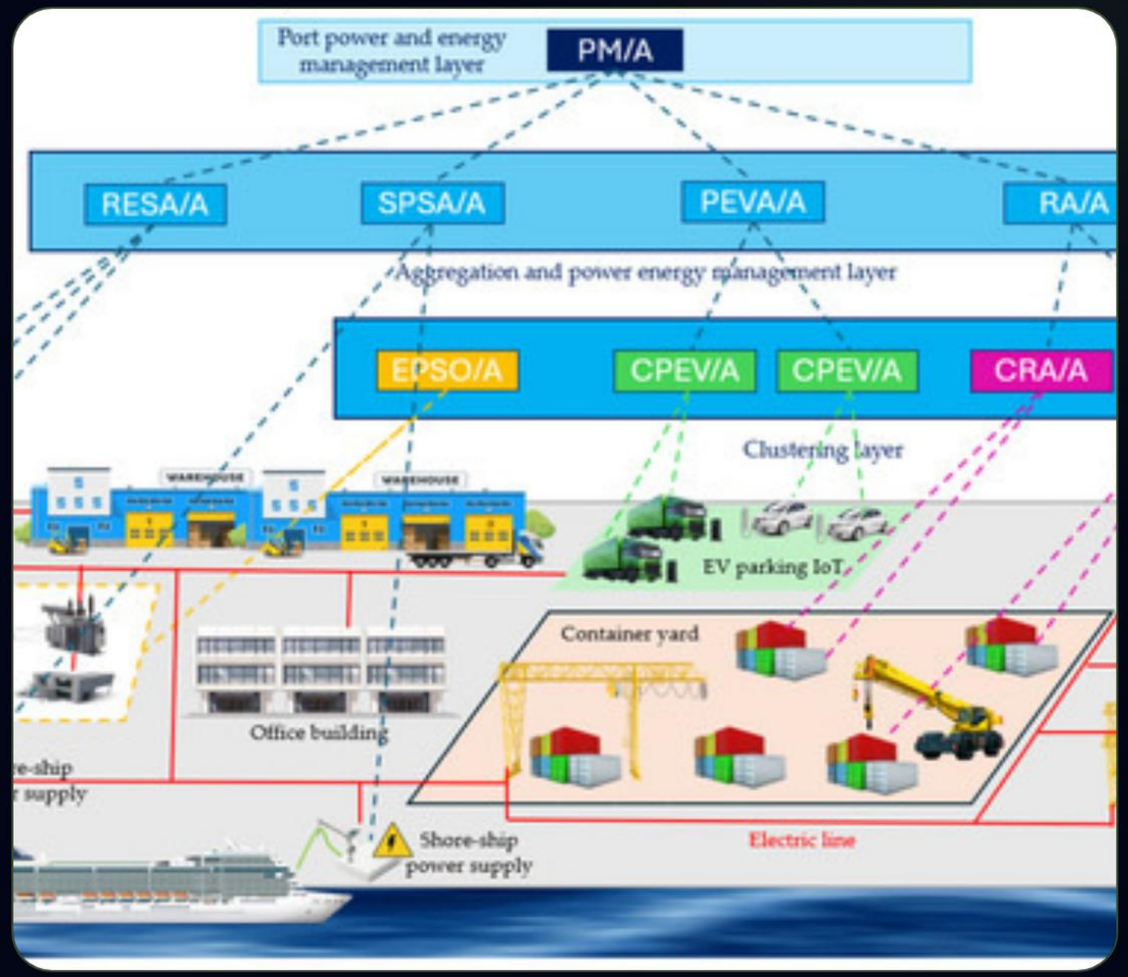
Localizing Trust

A Peer-to-Peer (P2P) marketplace specifically designed for South Africa's informal economy.

→ **Innovation:** Disrupting models with localized trust nodes.

→ **Features:** Integrated escrow and Paxi shipping integration.

→ **Goal:** Secure income systems for members in high-pressure environments.



THE TECH STACK

Languages
TypeScript, Rust, Python, Dart, Node.js

Frameworks
Next.js, React, Flutter, Supabase

Infrastructure
Ubuntu Linux, Docker, Wayland, HP ProDesk Edge

Security
Cloudflare, GH Advanced Security, Hugging Face

PHILOSOPHY

"

Each One Teach One.

— The Mandate of a Strategist

Procedural Discipline

Applying the life-or-death rigor of maritime safety (STCW) to digital system integrity.

Hardened Resilience

Turning limited resources into durable infrastructure; treating stress as an asset.

CURRENT PROJECTS

Zeta Cyber Shield: Defending SA Banking

Cape FarmScan: Precision Agriculture

"The Vault": Edge Computing Nodes
